Excerpt From The Book:

Unfortunately, many people get involved in relationships for the sake of not being alone. Subconsciously you may feel that you cannot do any better, so you may as well settle for what you have. You might just be plain sick and tired of waiting and being alone. You have to realize your worth, and know who you are in God. God does not look at us the same way that human beings look at us. To God you are valuable!

Chapter Five 'Brenda's Rush'

Being Single Is Not a Disease
